

FLOW CONTROL SOLUTIONS

Brands you trust. Service you can depend on.

WHAT YOU NEED. WHEN YOU NEED IT.

CNC Flow Control is equipped to take on procurement needs no matter the size or complexity. From your every day items to the more difficult to find, we have what you're looking for.

Our relationships are built and maintained by prioritizing what matters most - **Product Leadership, Operational Excellence and Customer Intimacy.**

Because of our dedication to quality and service, customers view us as the people they trust to integrate flow controls with their equipment and ensure the successful achievement of their project goals. Our increased involvement with a diverse range of projects, spanning an array of industries provides us with a multitude of references for successful integration.

With same day shipping and guaranteed transit times, you're sure to get the products you need when you need them.

API 6D VALVES

C&C's valves exceed industry standards by maintaining certifications such as API 6D, API 607 and API 6FA. Valves are available in sizes 2" through 36" in ANSI Class 150 to 2500. Both trunnion mounted and floating ball design are available in carbon steel and stainless steel.

- Floating Ball Valves
- Trunnion Mounted Ball Valves
- Piston Check Valves
- Cast & Forged Bodies
- Carbon & Stainless Steel
- Metal & Soft Seats
- FORCE Floating & Trunnion Mounted Ball Valves

FLOW LINE FITTINGS • OILFIELD PRODUCTS

C&C's breadth of available products is diverse. From hammer unions to ball valves, C&C products complement almost any stocking portfolio. C&C has provided the market with quality valves and fittings for nearly two decades. Today, C&C products are seen in almost all upstream oil and gas applications throughout North America.

- Ball Valves
- Butterfly Valves
- Check Valves
- Instrument Valves
- Hammer Unions
- Flow Line Products
- Grooved-End Products
- Seals & Gaskets

VALVE AUTOMATION CAPABILITIES

Diamond Gear is a provider of high quality industrial worm gears, bevel gears, declutchable override gears, and gear accessories. With large inventory levels and customization capabilities, Diamond Gear will get you in motion.

- Override Gears
- Bevel Gears
- Worm Gears
- Valve Automation Services

VE[®] DUAL EXPANDING PLUG VALVES

VE[®] is the valve of choice for applications that require a true double block and bleed and double isolation product. The VE[®] Dual Expanding Plug Valve is recognized globally for its innovative design and solid performance. This Dual Expanding Plug Valve is ideal for liquid storage tanks and midstream applications such as metering systems, fuel loading/unloading, and storage terminals.

- Sizes 2" - 36"
- ANSI Class 150 - 600
- Fugitive Emissions Certified
- Fire Safe Certified
- Zero Leakage
- Double Isolation Function according to API 6D/ISO 14313
- All Wetted Parts - ENP Protection

API 602 GATE, GLOBE & CHECK VALVES

SMITH's reputation for quality has been forged over a half-century. Dedication to product quality continues today through substantial investments in technology resulting in improved engineering and manufacturing practices. Coupled with the time tested designs and unique color coding system, SMITH has and will continue to provide API 602 forged steel valves to a variety of industries throughout the world.

- Gate Valves
- Globe Valves
- Check Valves
- Bellow Seal Valves
- Y-Pattern Globe Valves
- Cryogenic, Sour Gas, Chlorine, Oxygen and HF Acid Service Valves

GATE, GLOBE & CHECK VALVES

PK Valve is the largest manufacturer of industrial gate, globe, and check valves in South Korea. PK is known for their superior quality and have earned approvals from some of the largest multinational downstream Oil and Gas corporations. PK maintains a fully integrated manufacturing operation in South Korea whose capabilities include R&D, Destructive Testing, and NDE testing. From the casting phase to assembly and test, manufacturing is done completely in-house and is the reason PK valves have been widely accepted since 1946.

- Gate Valves
- Globe Valves
- Check Valves
- Y-Pattern Globe Valves
- Pressure Seal Valves
- Cryogenic Valves

econ[®] VALVES • ACTUATORS • ACCESSORIES

Econ[®] is a leading provider of valves and valve related products. The Econ[®] brand of products is designed around today's standards and expectations from various agencies and customer groups. Econ[®] products have added features, which make them suitable for a wide spectrum of applications.

- Rack & Pinion Actuators
- Scotch Yoke Actuators
- Electric Actuators
- Full & Reduced Port Ball Valves
- Smart Positioners
- Limit Switches
